

H is for Help

The founder of Asha is Dr. Kiran Martin. Amazingly, she started her career under one of Delhi's trees!

Help is very important in Asha. Over 500,000 people have been helped by Asha. Asha helps people by giving slum dwellers materials to prepare and to sell. We are helping Asha by organizing a sponsored run around the school.

Asha has also helped by giving children in the slums a chance to be educated. For most slum families, educating their children is the last thing on their minds. Children in slums grow up aware of their right to a full education. The most important help Asha gives is access to free healthcare!

Asha has joined forces with a charity called Tear Fund. These two charities together are saving lives and making a real difference. At Kibworth, we have completed our own fun run in aid of Asha which will inevitably go towards saving lives in New Delhi. Dr. Kiran Martin, first saw a slum in 1988 when helping to treat a cholera outbreak. This is what inspired her to found Asha!
